MAP FIGURE

The figure is a vertical template for a map. It consists of a top section with a grey and white checkered pattern, a central dashed rectangle, and a bottom section with a grey and white checkered pattern. A scissors icon is located on the right side of the bottom checkered section, indicating where to cut. The entire figure is surrounded by dashed lines and has tabs at the top and bottom for assembly.

INITIATIVE MARKER

Nombre _____

A diagram of a hexagonal lattice structure. It features a central hexagon formed by dashed lines. This central hexagon is surrounded by a larger hexagon formed by solid lines. The solid lines are arranged in a way that they form a honeycomb-like pattern, with each vertex of the central hexagon being the center of a solid hexagon. The overall structure is symmetrical and represents a common model for molecular crystals like graphite.

1.  Cortar con cuidado con cuchilla o tijeras, siguiendo las guías marcadas
2.  Dobra en las líneas de puntos, asegurandote que las áreas grises queden ocultas
3.  Opcionalmente, arreglalo con pegamento
